

ConnectFX

The ConnectFX app is a dedicated remote control solution for the WELL CONNECT system, offering seamless operation over multiple lighting protocols to patch fixtures, change colors, and manage scenes.

This versatile app is the ideal control solution for lighting professionals, system integrators, and event spaces requiring dynamic and reliable lighting management.

- Provides dedicated phone and tablet versions for both iOS® and Android.
- Delivers seamless control over WDMX, CRMX, DMX, ArtNet, and sACN protocols.
- Simplifies fixture patching directly from your mobile device for rapid setup.
- Features intuitive color selection and real-time adjustment for dynamic looks.
- Enables easy creation, storage, and playback of complex lighting scenes.
- Pairs exclusively with WELL CONNECT for reliable, dynamic lighting management.
