Firmware USB

A dedicated firmware uploader that stores multiple CHAUVET Professional software files and automatically updates any compatible fixture through its integrated USB-A and USB-C ports.

The ideal tool for technicians, production companies, and rental houses needing a fast and computer-free solution for maintaining and updating their inventory of CHAUVET Professional fixtures.

- Provides 8GB of storage for maintaining a comprehensive library of fixture firmware.
- Built with both USB-A and USB-C connectors for maximum fixture compatibility.
- Eliminates the need for a laptop for a faster, more efficient update process.
- Enables intelligent, automatic firmware detection by the connected CHAUVET Professional fixture.
- Arrives pre-formatted and ready for immediate use right out of the box.
- An essential tool for technicians managing large inventories of CHAUVET Professional fixtures.
