

etherCON Extension

A professional-grade Neutrik etherCON CAT6E extension cable designed to reliably extend high-speed network connections.

Perfect for demanding live production, touring, and installation environments requiring a rugged and secure data link for audio, video, or lighting equipment.

- Features locking Neutrik etherCON connectors for secure, mission-critical links.
- Built to the CAT6E standard to support demanding 10-Gigabit network speeds.
- Engineered with a heavy-duty, flexible jacket for reliable use in touring environments.
- Reliably transmits data for Art-Net, sACN, Dante, and other network protocols.
- Available in five standard lengths to accommodate a variety of production needs.
- The rugged connector housing protects the internal RJ45 from physical impact.
