

IP65 Rated 5-Pin DMX Extension

This IP65-rated, 5-pin DMX extension cable utilizes Seetronic connectors to reliably lengthen lighting control signal paths.

Ideal for use in outdoor events, touring productions, and any environment where cables are exposed to dust, moisture, or harsh conditions.

- Features genuine Seetronic connectors for secure, reliable signal transmission.
- Ensures reliable operation in wet and dusty conditions with an IP65 rating.
- Designed with a rugged, heavy-duty jacket for touring and outdoor event reliability.
- Delivers clean, uninterrupted DMX data transmission for precise fixture control.
- Extends DMX control runs for large-scale outdoor stages and festival rigs.
- Offered in multiple lengths for flexible setup and cable management.
