

IP65 Rated Seetronic® Powerkon Extension (US Only)

A Seetronic Powerkon IP65-rated power extension cable, available in three lengths, provides a secure and weather-resistant electrical connection for professional equipment.

Ideal for outdoor events, on-location productions, and temporary installations requiring reliable power distribution in demanding environments.

- Features genuine Seetronic Powerkon connectors for secure, locking power connections.
- Built with a rugged, IP65-rated construction for reliable all-weather operation.
- Offers a heavy-duty 12 AWG SJOOW cable for maximum durability and flexibility.
- Rated for 20 A and 250 VAC to safely power high-demand professional equipment.
- Available in multiple lengths to accommodate a variety of production setups.
- Designed for safe and compliant use with US-based power systems.
