

IP Tester

The IP Tester is a portable, tour-ready tool designed to verify the vacuum and pressure integrity of IP-rated products using pre-loaded and custom testing profiles. Ideal for service technicians and rental houses needing to confirm the weatherproofing of any IP-rated product equipped with a Gore valve before touring or outdoor use.

- Conducts both vacuum and pressure tests to verify the seal integrity of IP-rated fixtures.
- Includes pre-loaded testing profiles for CHAUVET Professional IP fixtures for immediate use.
- Allows for creating custom testing profiles for any IP-rated product with a Gore valve.
- Features an integrated web server for easy PC connection to manage profiles and store data.
- Utilizes a USB-C port for simple software upgrades and exporting test data logs.
- Housed in a compact, impact-resistant ABS case designed for touring and road cases.

SPECIFICATIONS

Construction / Physical	Electrical
<p>Dimensions: 14.38 x 11 x 7.5 in (365.25 x 279.4 x 190.5 mm)</p> <p>Weight: 9.4 lb (4.3 kg)</p> <p>Exterior Color: Black</p> <p>Housing Material: Injection molded case</p>	<p>Input Voltage: 100 to 240 VAC, 50/60 Hz (auto-ranging)</p> <p>Power and Current: 25 W, 0.335 A @ 120 V, 60 Hz</p> <p>Power and Current: 25 W, 0.214 A @ 208 V, 60 Hz</p> <p>Power and Current: 25 W, 0.205 A @ 230 V, 50 Hz</p>
