

onAir Panel 3 IP Studio Barndoor

A four-leaf aluminum barn door accessory for the onAir Panel 3 IP, designed to precisely shape light output and eliminate unwanted spill with its adjustable leaves. Perfect for broadcast studios, film productions, and theatrical stages where precise control over light direction and the elimination of light spill on set elements is critical.

- Features four independently adjustable leaves for precise beam shaping.
- Provides critical light spill control for broadcast and theater applications.
- Constructed with rugged aluminum in a non-reflective black finish.
- Designed for seamless integration with onAir Panel 3 IP fixtures.
- Effectively reduces the beam angle for more focused and intensified light.
- Enables precise key and fill lighting by cutting the beam where needed.
