

onAir Panel 2 IP 60° Honeycomb

A specialized light control grid that attaches to a fixture to uniformly narrow the beam spread and eliminate unwanted light spill.

Perfect for studio photography, filmmaking, and theatrical stages where precise, focused illumination is required to highlight a subject without contaminating the background.

- Narrows the beam spread to a precise 60° field angle.
- Eliminates peripheral light spill for clean, focused subject highlighting.
- Designed exclusively for a seamless, secure fit on the onAir Panel 2 IP.
- Creates a soft, directional beam ideal for key or fill lighting.
- Provides greater lighting control in broadcast and studio environments.
- Installs quickly and easily for rapid adjustments on set.
