

onAir Panel 1 IP Pole Yoke

A manual adjustment accessory that enables remote pan and tilt positioning of the onAir 1 IP fixture by using an extension pole. Perfect for broadcast studios, theaters, or any installation where fixtures are mounted in hard-to-reach locations requiring quick, non-DMX based adjustments.

- Provides manual, pole-operated control over the fixture's pan and tilt positioning.
- Delivers a complete 360° of manual pan and 360° of manual tilt adjustment.
- Eliminates the need for lifts or ladders for routine positioning adjustments.
- Designed for simple installation, replacing the fixture's original stock yoke.
- Engineered exclusively for seamless integration with the onAir Panel 1 IP fixture.
- Streamlines focus calls and adjustments in studio or theatrical environments.
