

onAir Panel 2 IP Pole Yoke

A dedicated accessory providing manual, pole-operated pan and tilt control for the onAir Panel 2 IP, enabling precise adjustments from a distance. Ideal for broadcast studios, film sets, and theatrical stages where fixtures are rigged in hard-to-reach positions requiring frequent repositioning without a ladder.

- Enables safe, ground-level fixture adjustments, eliminating the need for ladders or lifts.
- Offers full 360-degree pan and tilt for complete and precise fixture positioning.
- Designed for dynamic environments requiring frequent, on-the-fly lighting changes.
- Engineered for quick and simple replacement of the fixture's standard factory yoke.
- Provides intuitive manual operation using a standard, readily available extension pole.
- Improves workflow efficiency in studios, theaters, and other hard-to-access rigs.
