

## Ovation 7.5", 60 deg Honeycomb

A 60-degree honeycomb louver designed for fixtures with a 7.5-inch accessory holder to control light spill and reduce glare.

Ideal for theatrical, broadcast, and architectural applications where precise beam shaping and the elimination of unwanted light is required.

- Increases beam control by significantly reducing unwanted light spill and glare.
- Narrows the beam spread with a well-defined 60-degree cutoff angle.
- Designed to fit securely in standard 7.5-inch fixture accessory holders.
- Creates a softer, more refined beam edge for smoother wash applications.
- Essential for theatrical and broadcast environments where light control is critical.
- Improves visual clarity by focusing light precisely where it is needed.
