

PowerStream 4

PowerStream 4 is a convenient powerCON® splitter that transforms a single power feed into five separate outputs for connecting multiple fixtures. Ideal for pre-rigging lighting trusses in stage, event, or touring setups to streamline power distribution and minimize cable clutter.

- Distributes power from one source to five separate fixtures via powerCON® connectors.
- Simplifies complex power runs and reduces cable clutter in pre-rigged trusses.
- Its compact, lightweight housing allows for simple installation in tight spaces.
- Offers auto-ranging 100 to 240 VAC operation for global compatibility.
- Delivers multi-directional power output to accommodate various rigging configurations.
- Utilizes locking powerCON® connectors to ensure secure, reliable power connections.

SPECIFICATIONS

Construction / Physical

Dimensions: 8.4 x 2.4 x 3 in (214 x 62 x 75 mm)

Weight: 1.7 lb (0.8 kg)

Housing Material: Steel

Connections

Power Input: Neutrik powerCON

Power Output: Neutrik powerCON

Power Output (quantity): 4 + 1 power through

Electrical

Input Voltage: 100 to 240 VAC, 50/60 Hz (auto-ranging)

Certifications / Qualifications

Certifications: CE

IP Rating: IP20, dry location

Optional Accessories

Neutrik powerCON cables
