

PowerStream 4 IP

The PowerStream 4 IP is a rugged, IP65-rated power splitter that taps into a single in-line feed to provide four outputs, greatly reducing the number of cables needed on a truss.

Its compact and durable design makes it ideal for production rental houses and for pre-rigging trusses in touring, festival, and event applications.

- Distributes power from a single in-line feed to four outputs for simplified rigging.
- Equipped with Seetronic PowerKon IP65 connectors for reliable, all-weather performance.
- Offers flexible mounting options with an M12 threaded insert for use with standard clamps.
- An integrated safety rail provides a secure attachment point for required safety cables.
- Supports 100 to 240 VAC auto-ranging input with a 16A maximum pass-through.
- Built with a compact housing to withstand the rigors of production rental and touring use.

SPECIFICATIONS

Construction / Physical

Dimensions: 10.81 x 3.0 x 2.68 in (274.5 x 76.2 x 68.0 mm)

Weight: 3.0 lb (1.36 kg)

Exterior Color: Black

Housing Material: Aluminum alloy, Aluminum die-cast

Connections

Power Input: TRUE1 style Compatible Seetronic PowerKon IP65

Power Output: TRUE1 style Compatible Seetronic PowerKon IP65

Power Output: (Quantity) 4 power through

Electrical

Input Voltage: 100 to 240 VAC, 50/60 Hz (auto-ranging)

Certifications / Qualifications

Certifications: CE, UKCA

IP Rating: IP65, temporary outdoor/wet use

Optional Accessories

IP65 rated Seetronic PowerKon cables

Safety cables

Clamps with M12 threaded bolts

What's Included

Power Stream 4 IP
