

PVP X3

A durable, high-resolution 3.9 mm pixel pitch LED video panel featuring a die-cast aluminum housing and magnetic modules to provide superior image clarity and fast serviceability.

Its superb contrast ratios and brilliant color reproductions make it equally effective for both rental and installation applications of any size.

- Features tri-color black body SMD 2121 LEDs for exceptional contrast and deep black levels.
- Precision CNC-machined aluminum body ensures perfectly seamless connections between panels.
- Magnetic LED modules enable rapid, tool-free replacement for simplified field service.
- Supports versatile rigging with the X-Series Rig Bar or integrated M12 mounting points.
- Integrates with the VIP Driver and Signal Distributor for unified system control.
- Built with integrated stainless steel hardware for secure and stable panel interlocking.
