

Quick Dissipating Fluid (QDF5)

A specially formulated fluid that generates a safe, non-staining, and residue-free thin mist of haze that dissipates quickly.

Ideal for creating momentary atmospheric plumes or CO2-style jet effects on stage that need to disappear rapidly without lingering.

- Formulated for peak performance and reliability with the Vesuvio fog machine.
- Generates a thin mist of haze for momentary atmospheric accents.
- Engineered for rapid dissipation, keeping sightlines clear after the effect.
- Features a non-toxic, non-flammable, and unscented water-based composition.
- Leaves surfaces, equipment, and costumes completely free of residue or stains.
- Ideal for crafting intense, CO2-style jet effects that vanish on cue.
