

RIGLINK PowerKon Cables

A UL-certified, professional-grade power cable designed with flexible copper-stranded wire and durable Seetronic® connectors for safe and reliable power delivery. Perfect for powering professional audio, video, and lighting equipment in demanding live event, touring, and stage production environments.

- Built with stranded oxygen-free copper conductors for clean, consistent power delivery.
- Offers a rugged, versatile design suitable for demanding touring and installation use.
- Equipped with professional-grade Seetronic® connectors ensuring a robust and secure link.
- Features UL-certified components that meet global safety standards for international use.
- Simplifies setup with color-coded connectors for quick identification of cable lengths.
- Available in multiple standard lengths to suit a wide range of production needs.

SPECIFICATIONS

Construction / Physical	Electrical
Conductor Specification: 3 x 2.08mm ² (14AWG)	Voltage Rating: 300 V/500 V
Conductor Structure: OFC 41/0.25BC	Conductor Resistance: 7.8 Ω/km
Insulation Material: PVC	
Insulation OD: 3.45mm	
Outer Jacket Material: PVC (Black)	
Outer Diameter: 9.2 ± 0.2mm	
Temperature Rating: -20°C – 105°C	
	Cable
	Imperial: 1.5ft, 5ft, 10ft, 25ft
