

## SC-07 Safety Cable

A steel safety cable and carabiner with a discreet black finish is engineered to prevent fixtures and other equipment from falling, ensuring safety during productions and meeting venue requirements.

Ideal for securing lighting, audio equipment, or any other gear within a production rig for theatre, concerts, and live events.

- Constructed from aircraft-grade steel for maximum strength and reliability.
- Features a safe working load of 35 kg (77.2 lbs) for versatile equipment support.
- Includes an integrated carabiner for quick and secure attachment to fixtures.
- A professional black finish ensures low visibility within any production rig.
- Provides essential secondary support to meet rigorous venue safety regulations.
- Designed for securing lighting, speakers, and other overhead production gear.
