Vesuvio 4 IP

This IP53-rated vertical fogger creates powerful, illuminated atmospheric bursts with dual-zone RGBA LEDs, delivering a CO_2-style effect without needing compressed gas tanks.

It delivers extreme vertical or horizontal throw for the largest outdoor festivals, touring stages, and indoor environments that demand high-impact, tour-grade atmospheric effects.

- Advanced Vertical Fogger – Creates powerful vertical fog bursts, delivering a CO_2-style effect without the need for gas or tanks.
- Outdoor-Ready Design – Rated for temporary outdoor use, providing reliable operation in wet or damp environments.
- High-Performance Output – Engineered for extreme throw distances of up to 50 ft (15 m), ensuring maximum visual impact.
- Dual-Zone RGBA Illumination – Independently controlled LED zones enable creative color effects and dynamic visuals.
- Rugged Flight Case Included – Ships in a durable touring case for easy transport and protection during rental or live event use.
- Flexible Control Options – Operate via onboard full-color display, wireless RF handheld remote, or DMX integration.
- Integrated Drainage System – Simplifies post-use maintenance with quick water evacuation and easy cleanup.
- USB-C Port – Allows convenient software and firmware uploads for future updates.
- QDF (Quick Dissipating Fluid) Required – Ensures optimal performance and clean atmospheric effects.
