WELL Com

The WELL Com is a wireless interface that provides full control over W-DMX enabled lights by allowing you to build and save scenes and chases directly from a smartphone or tablet app.
Perfect for mobile entertainers, small venues, or any application where convenient, app-based wireless lighting control is preferred over a traditional DMX console.

- Transmits control signals via wireless W-DMX or a traditional 3-pin wired DMX connection.
- Operates for up to 8 hours on a single charge with its integrated rechargeable battery.
- Controlled by a dedicated free app compatible with both Android and iOS devices.
- Provides a complete 512-channel DMX universe for programming complex lighting setups.
- Build detailed scenes with up to 24 steps and store 18 programs for instant recall.
- Delivers a reliable wireless connection with an operating distance of up to 200 meters.
